AM Pierce & Associates Awarded Prime contract in support of NAVAIR's Data Fusion Branch (AIR 4.5.5.3)

AM Pierce & Associates is proud to announce that it was awarded a single award prime contract to support the Naval Air Systems Command (NAVAIR) Data Fusion Branch (AIR 4.5.5.3) to provide a full spectrum of research and development in the areas of Data Fusion (DF), Artificial Intelligence (AI), and Machine Learning (ML). AM Pierce will provide unique subject matter expertise in advanced systems engineering, analysis, development, and the integration of intelligent systems and capabilities into Naval Aircraft (manned and unmanned), weapons, ground stations and various other military systems.

This award enables AM Pierce to continue to provide support in the emergent and rapidly developing fields of AI, DF, and ML. We look forward to continuing our long partnership with NAVAIR and support to the AIR 4.5.5.3 mission.
